

Inactive Computers

```
$DaysInactive = 365
```

```
$time = (Get-Date).Adddays(-($DaysInactive))
```

Print on Screen:

```
Get-ADComputer -Filter {LastLogonTimeStamp -lt $time} -ResultPageSize 2000 -resultSetSize $null  
-Properties Name, OperatingSystem, SamAccountName, DistinguishedName
```

Export:

```
Get-ADComputer -Filter {LastLogonTimeStamp -lt $time} -ResultPageSize 2000 -resultSetSize $null  
-Properties Name, OperatingSystem, SamAccountName, DistinguishedName | Export-CSV  
"C:\accent\StaleComps.CSV" -NoTypeInfoation
```

Only Enabled:

```
Get-ADComputer -Filter {(LastLogonTimeStamp -lt $time) -and (Enabled -eq $True)} -  
ResultPageSize 2000 -resultSetSize $null -Properties Name, OperatingSystem, SamAccountName,  
DistinguishedName | Export-CSV "C:\accent\StaleComps.CSV" -NoTypeInfoation
```
